24 Years in Aluminium Excellence Commercial Aluminium

General information

Aluminium's unique combination of strength and lightness enables frames , sashes and fittings to be neat and unconstructive. Because the frames , rails , and stiles can be finer than those made in wood, they allow maximum entry of light and provide unconstructive view of light and provide unconstructive views.

We have been in business for over 24 years , supplying and installing Commercial Aluminium into major Malls, Hotels, Office Blocks and Warehouses in the South African metropolitan areas.
