COMPANY PROFILE

Started in 2003 by Mr. Gavin Schmidt , **Nu Vision Aluminium (PTY) LTD** is a privately owned South African based company that specializes in the design, manufacture and installation of most architectural aluminium systems such as Sliding folding doors (stack doors), Casement Windows , shop fronts , sliding doors , to name a few , both for domestic and commercial markets. All of our windows ad doors are manufactured from the highest quality architectural aluminium supplied.

With our personal touch we ensure that our clients do not only get the best products suited for their need and application, but also at the most economical price. We pride ourselves in building relationships with our customers, and with our "hands on" approach to manufacturing and installations, we ensure that our customers are fully satisfied with our product and services that they expect with dealing with a reputable company as ourselves.

Being an SME company with a close nit and well trained employee base we are able to manufacture standard and custom windows and doors including specialized glass and aluminium products to suit any of your requirements.

VISION

To be the leading brand in respect of new and replacement glazing to owners and tenants in the residential, industrial corporate and commercial markets in Southern Africa.

MISSION

There Are 3 main pillars Nu Vision Aluminium firmly stands upon and believes in, namely the Customer Service , High manufacturing standards and the best possible pricing.
